Willerby Carr Lane Primary School

SEX OFFENDERS POLICY

The following restrictions will apply to parents who have been required to sign the sex offenders register:

- Parents and carers who have been required to sign the sex offenders register are excluded from entering the school site.
- The school restrictions include attendance at other school events such as sporting fixtures, music and drama productions and celebration or end of term event etc.
- Arrangements for reporting the progress of such a parent's children will be made through normal written reporting systems and by discussions with the other parent or carer if appropriate.
- All parents have a right to be involved in the decision making process about their child's progress. It is advised this should include an opportunity for such a parent to discuss progress with school staff.
- Consultation meetings for such parents will be arranged on the school's terms. For example it should be at a time when no children or young people are on site, the parent should be met and escorted to the meeting and escorted off the site. Staff may feel uneasy about meeting such a parent and it would be reasonable for other staff or adult to be present and consideration given to information and comments being relayed by senior staff.
